Chance the Closer is a DJ and electronic music producer celebrated for his explosive fusion of bass house, future bass, techno, dubstep, and trap. Formerly a Realtor and tech salesman in Los Angeles, he earned the nickname "The Closer" before ever stepping on stage.

His musical journey began at age 11 and has carried him from college in Chicago to a decade of acting in Hollywood, and now to the mountaintops of Oregon where he crafts electrifying music with a mission to change the world through sound. With over 1.5 million streams on Spotify and a large following on Instagram and Youtube Chance continues to expand his genre-defying catalog and connect with fans through high-energy live shows and constant creative output.

Interview With Chance the Closer Regarding “The Algorithm” EP

By MichaelJamo - November 19, 2022

Silverton-based Chance The Closer, a former actor and author who is now an enthusiastic multi-instrumentalist and all-genre producer who has been in music from infancy. He has subsequently demonstrated his skill as a producer and instrumentalist, and he excels at what he does. On August 8th of this year, he published “The Algorithm,” a three-track EP with a total length of ten minutes and forty-six seconds with songs that just feel impressive.

“The Algorithm” Ep has numerous components to it, with subtle elements and deep synth sounds, and this piqued our curiosity at Songweb, so we spoke with Chance the Closer to discover more about this project and many other intriguing facts about him. Stay tuned for further information.

SONGWEB: Tell us about yourself and your background.

CHANCE THE CLOSER: I am a former actor/realtor/author turned all-genre music producer. I was raised all over the country, born in St. Louis then where my father was running a radio station. At six months old I moved to Portland, OR then at five I moved to Houston, TX then at eleven I moved to Richmond, VA. I spent my middle school and high school years in the south then moved to Chicago for college. I attended Columbia College Chicago and graduated with high honors. I spent an extra year in Chi-town then after a major heartbreak I moved to Los Angeles to pursue my acting career. I spent nearly ten years in LA chasing the acting bug but with only mild success. I have been on half a dozen tv shows and a couple of movies but nothing major. While in Los Angeles I wrote a couple of books and also got my real estate license and started closing big deals in the real estate and tech world, that's where I gained my moniker of “Chance the Closer”. After a decade of living in LaLa land, I decided to go into a property with my parents. We purchased an 82-acre farm in Silverton, Oregon. Now in-between making music and performing I help raise goats and plant, on top of being the president of a finch company.

SONGWEB: Where do you get inspiration, and how does it influence your creative process?

Chance the Closer brille de mille feu avec son single original intitulé “Kan Ye We St”

Producteur D&B, Dubstep & House basé dans l'Oregon, Chance the Closer est un artiste connu pour ce qu'il apporte de particulier dans ses musiques, notamment une touche de funk et un piquant des années 90, qui est particulièrement apprécié et fait place à un public plus grand. Cet artiste adore mettre du rythme dans ses morceaux et lui-même s'emploie à dire « La musique est la nourriture de l'âme et je suis le chef du rythme. ».

Dans son single original « Kan Ye We St », Chance the Closer se surpasse pour captiver une fois de plus ses auditeurs, que ce soit la thématique qu'il traite ou alors le rythme qu'il impose. Les paroles sont poignantes et bien agencées, il met en lumière dans une ambiance folklorique, la façon dont les médias de nos jours sont sans scrupule envers la gens, leur qualifiant ainsi de couteau à double tranchant.

Lorsque vous écouterez ce morceau, deux sentiments vous

Producer Spotlight: Chance The Closer

📅 October 27, 2020 👤 Info@globalmoneyworld.com

With countless releases coming to the people every day, it's gets tougher to make music engaging enough to hold the people. If you add in the element of the music being an instrumental it raises the difficulty level even further, leaving only room for special talent to flourish. That special talent is Chance
